

Velstand

It is All-in-One Blog System. build on Umbraco!

Install

Sorry, you need only one set

- Developer Section > Data Types > VelstandSelectWidgets
- Please change property editor to Macro container

The screenshot shows the Umbraco Developer interface. On the left is a sidebar with icons for Home, Content, Media, Settings, and Macro containers. The 'Macro containers' icon is selected. The main area is titled 'VelstandSelectWidget'. It contains a search bar at the top. Below it is a list of widgets: Multiple Media Picker, Numeric, Radiobox, Related Links, RichText editor, Tags, Textbox multiple, Textstring, True/false, Upload, Velstand Markdown, Velstand Markdown Mini, VelstandCoverImage, VelstandEyecatch, VelstandHolderSetting, VelstandListView, VelstandMultiContentPicker, VelstandRichTextEditor, VelstandRichTextEditorMini, VelstandSelectCategory, and VelstandSelectWidget (which is highlighted in blue). To the right of the list, there are two fields: 'Property editor' with a dropdown menu showing 'Label', and 'Property editor alias' with the text 'Umbraco.NoEdit'. A green 'Save' button is at the bottom right.
